

February 26, 2016

Special issue of OPA
IX Ibero-American Meeting on Optics (RIAO) and the
XII Ibero-American Meeting of Optics, Lasers and Applications,
RIAO/OPTILAS 2016

Pucón, Chile, November 21-25, 2016

The journal *Optica Pura y Aplicada* (OPA), published by the Spanish Optical Society (SEDOPTICA), aims to stimulate and promote the development of knowledge in the field of optics, and in particular in the fields of scientific research, education and industrial applications needed for today's society. It also serves as a forum for optics and photonics communication.

Thus, due to the upcoming RIAO/OPTILAS conference in Pucón, Chile, 2016, the Editing Committee invites all meeting participants to publish the extended version of the communications presented there in OPA, the journal of the Spanish Optical Society, member of the Ibero-American network of Optics (RIAO)

These articles will make up the proceedings of the conference, including new aspects of interaction with colleagues during the meeting. All articles will be published in Spanish or English, and will undergo the double review process characteristic of the journal. Submissions should contain something new, with respect to other previous publications, according to the acceptance criteria of works published in the journal website http://www.sedoptica.es/Menu_Volumenes/

OPA is included in international databases such as Scopus, Inspec, DOAJ and Latindex, and appears in numeric listings for evaluation of journals (Scopus SNIP2014 = 0, 181, or Scimago Journal Rank SJR2014 = 0, 17). Author information for manuscript preparation, as well as a template for the layout, can be found on the journal website in the Section for Authors http://www.sedoptica.es/Menu_Volumenes/autores.php

The deadline for the submission of articles and communications in OPA will remain open until November 03, 2016.

We hope that this initiative will be of interest for all Conference participants, and we send you all our best regards,

David Mas
Editor OPA

Chairman
Organizing Committee RIAO/Optilas
2016 Conference
